

Executive Summary

Urban Select Capital is a global investment management, financial advisory and private equity firm focused on investing growth capital into private and public companies across the Pan-Pacific region in sectors including cleantech and renewable energy, natural resources, chemicals, agriculture and consumer services.

Our Focus

Urban Select is investing in leading private and public companies whose businesses involve later-stage renewable energy, environmental technology or other selected sectors and then identify an exit strategy via M&A, IPO, APO, etc. Urban Select is providing its portfolio companies not only with capital resources, but with extensive business and strategic expertise and global networking opportunities. Urban Select has expertise in the capital markets including mergers and acquisitions, reorganizations, financings, restructurings, and leveraged buyouts. Urban Select is creating strategic alliances by facilitating mutual cooperation and synergies amongst the portfolio companies.
